ASI SNAKE GAITERS

The African Snakebite Institute snake gaiters have been developed for African conditions. The new product extends from the ankle to just below the knee and has three adjustable Velcro straps – one size fits all. The ASI

Snake Gaiters are manufactured from two layers of Cordura Outer with a layer of Novbelt in the middle. The gaiters have been tested on a variety of snakes including the Puff Adder, Black Mamba, Forest Cobra, Snouted Cobra

and Rinkhals and with excellent results – no snake managed to get a fang through all three layers. Ideal for snake handlers, hunters, fishermen, birders, hikers and for people who spend time in the bush. The gaiters weigh 535 grams and measure 47 x 33 cm. Snake Gaiters for children or shorter legs also available.

R895.00

(add R65.00 for local registered mail – to be collected from your Post Office or R120.00 Post net to Postnet. Please ask for a quote for courier delivery)

PRO 150 SNAKE TONGS

best-seller

This tong is ideal for people who occasionally have to remove problem snakes, especially at game lodges and on mines, but who are not very experienced. The extra 50-odd cm keeps the snake further away from the handler and is far safer to use. Measures 1.54 m and weighs 800 g. Packed in cardboard tube for shipping – Weight 830 g, dimensions 1.65m x 20 cm x 10 cm.

R1,500.00

(add R65.00 for local registered mail – to be collected from your Post Office or R120.00 Post net to Postnet. Please ask for a quote for courier delivery)

PRO 180 SNAKE TONGS

Measures 1,84 cm in total length and weighs 850 g.

R1,550.00

(add R65.00 for local registered mail – to be collected from your Post Office or R120.00 Post net to Postnet. Please ask for a quote for courier delivery)

PRO 200 SNAKE TONGS

Identical to the previous tongs but 2 m long and weighs 860 g. This tong is ideal for people who occasionally have to remove problem snakes, especially at game lodges and on mines, but who are not very experienced. Also ideal for snakes in trees. The extra length keeps the snake further away from the handler and is far safer to use.

R1,600.00

(add R65.00 for local registered mail – to be collected from your Post Office or R120.00 Post net to Postnet. Please ask for a quote for courier delivery)

©Johan Marais African Snakebite Institute

www.AFRICANSNAKEBITEINSTITUTE.com

PILLSTROM SNAKE TONGS

Measures 107 cm in total length and weighs 665 g.

R1,700.00

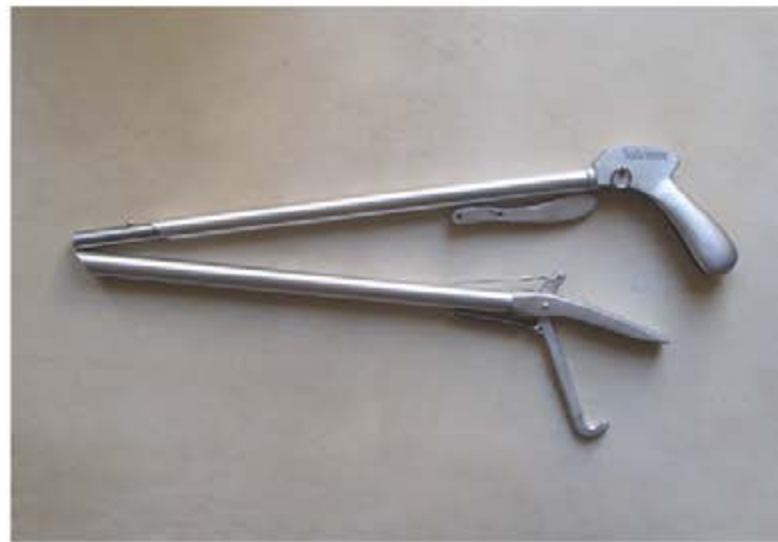

(add R65.00 for local registered mail – to be collected from your Post Office or R120.00 Post net to Postnet. Please ask for a quote for courier delivery)

PRO 100 COLLAPSIBLE SNAKE TONGS (Small)

Ideal to keep behind the seat of a pickup truck. Measures 50 cm folded and 102 cm assembled, weight 850 g.

R1,500.00

(add R65.00 for local registered mail – to be collected from your Post Office or R120.00 Post net to Postnet. Please ask for a quote for courier delivery)

PRO 180 COLLAPSIBLE SNAKE TONGS (Large)

Ideal for large snakes and snakes in trees.

Measures 1 m collapsed and 1.85 m assembled, weight 1.2 kg.

R1,700.00 (add R65.00 for local registered mail – to be collected from your Post Office or R120.00 Post net to Postnet. Please ask for a quote for courier delivery)

COMMON SNAKES OF JHB/PRETORIA

Johannesburg and Pretoria has a great variety of snakes with most of them not considered dangerous. Two species can inflict painful bites while five species can be considered very dangerous.

EMERGENCY PROTOCOL
In the event of a snake bite, DO NOT...
1. Do not panic. Stay calm and try to keep the bite area clean and still. If possible, use a clean cloth or bandage to loosely wrap the area. Do not use a tourniquet.
2. Do not cut, suck, or apply any substances to the wound.
3. Do not apply heat or cold to the wound.
4. Do not walk or drive to the hospital. Call for an ambulance or take the patient to the nearest hospital.

Golden Snakebite Kit
Includes: 1. First Aid Kit, 2. Snakebite Kit, 3. Snakebite Kit, 4. Snakebite Kit, 5. Snakebite Kit, 6. Snakebite Kit, 7. Snakebite Kit, 8. Snakebite Kit, 9. Snakebite Kit, 10. Snakebite Kit, 11. Snakebite Kit, 12. Snakebite Kit, 13. Snakebite Kit, 14. Snakebite Kit, 15. Snakebite Kit, 16. Snakebite Kit.

johan@africansnakebiteinstitute.com
Find out more at www.africansnakebiteinstitute.com

EMERGENCY PROTOCOL

STINGS FROM DANGEROUS AND VERY DANGEROUS SCORPIONS MUST BE TREATED AS A MEDICAL EMERGENCY.

- 1 Transport the victim to hospital **without delay**.
- 2 Immobilise the affected limb to slow the spread of venom.
- 3 If the victim stops breathing, apply artificial respiration or use a Bag Valve Mask.
- 4 Call the Poisons Information Centre helpline for further advice: 0861 555 777.

DO NOT

apply a tourniquet, cut and suck the wound, use ice or any hot ointment, give the victim alcohol, apply electric shock, inject antivenom routinely.

Antivenom (if required) must be administered by a doctor in a hospital environment.
